## Top take-out and delivery tips:

- 1. As we reopen for dine-in across Canada, most of us are focusing on our dine-in guests, which is the right thing to do! Make sure to adjust your prep times on your delivery tablets to reflect more accurately and remember that it is better to turn off your delivery services if you are being overwhelmed with dine-in guests rather than have longer wait times, courier delays or missed items.
- 2. As you recall your staff, a quick 15-minute refresher training session of packaging and checking off delivery orders will eliminate mistakes. Remember, some of your team is brand new and others haven't worked in a while.
- 3. Share your score weekly on your staff communication boards and communicate your goal to your teams. They are competitive and will want to outperform the other locations in your market. It's amazing what happens when people are aware of your locations results and how they change their actions to perform better! Empower your team to be the engine that drives you to the top of the list!

Please do not hesitate to contact me directly should you have any questions or concerns at ikaytor@smittys.ca or 403-930-8741.

Yours truly, SMITTY'S CANADA INC.
