RE: **Spring Summer 2021 Feature Ingredients**

Hello Everyone,

As we get ready to launch our Spring Summer Menu, we wanted to share information about the unique ingredients you will be using. Each of these Menu Items and ingredients were tested with our guests as a part of the Test Menu program we ran in seven restaurants earlier this Spring. These products were approved as a part of this process.

In the Order Guide attachment, you will find a list of the unique ingredients including the Menu item(s) the ingredient is used for and the stocking status of the item in each OPCO.

We will be Auto-Shipping each restaurant the required non-perishable unique ingredients so your team does not need to do any of this work. In the May-June Auto-Shipments attachment you will find the list of ingredients being shipped to each restaurant. We are happy to announce that Unilever will be providing your restaurant the first case of Lemon Zaatar Dressing at no charge and Saputo will be supplying your restaurant with their first case of Goat Cheese at no charge.

Because of the unknown regional COVID re-opening dates, we are not including the perishable Spring Mix for the Mediterranean Salad in the Auto-Shipment.
